Watch & bid online for FREE at **DVAuction**
Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with
 DVAuction's "real time" internet Bidding Service

- Buying is as easy as 1, 2, 3...**
1. Create an account at www.dvauction.com under the "Create New Account" tab
 2. Apply for bidding approval by clicking on the "Apply for Bidding" tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved
 3. Tune in for the sale and make your purchases

After the sale, contact the sale manager or owner to arrange transportation and payment. **High Speed Internet** is required for successful bidding.

Proxy Bidding- If you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away

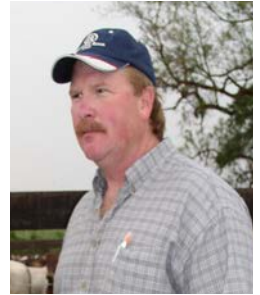

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 316-5460.

WV Beef Expo Banquet

Friday, April 12, 2024 - 6:30 p.m. Mt. Vernon Dining Hall – Jackson’s Mill

The annual banquet at the Beef Expo includes an excellent meal featuring beef, the WV Cattlewomen’s Auction and Dr. Rick Funston discussing the beef industry.

Dr. Funston is a professor and Reproductive Physiologist at the University of Nebraska. He received his BS from North Dakota State University, MS from Montana State University his PhD from the University of Wyoming, and completed a Post Doc at Colorado State University in Reproduction/Biotechnology. He divides his time between extension and research. His research on lighter heifer development is receiving national attention/adoption; research on fetal programming effects on postnatal calf performance including carcass characteristics and reproduction has received national and international recognition; and he is a team member of nationally recognized beef systems research. In the extension capacity, he provides leadership and subject matter expertise for educational programs in cow-calf production management for the West Central District and statewide expertise in beef reproductive management programs.

\$500 DRAWING!!!!

Each person under 25 years of age that attends the banquet will be eligible for a drawing of \$500.

SPONSORS OF THE DRAWING:

- WV Red Angus Association
- WV Simmental Association
- Cedar Hill Farm
- Amy Summers

Tickets are \$25 for ages 12 and over; \$15 for youth ages 4-11. Tickets can be purchased by calling Rod Summers at 304-842-7958. Please make banquet reservations by March 29, 2024.

Whether you are looking for a competitive show heifer or something to make a good cow, be sure to look this one up! This one comes together in an elegant package with all the right parts and pieces. She's flawless in her movement and is only going to get better as time goes on. If you're looking for a heifer that will be tuned for the later summer/fall shows, she'll be the one to fill that ticket. We are retaining her full sister who was successfully shown.

EXAR Winnie 8459	EXAR Winnie 4371		\$B	120

331 is a nicely made heifer with plenty of rib shape and dimension that ties it altogether in an attractive package. She is a half-sister to Marli Phillips' heifer that won several shows including the WV State Fair Jr. Angus show, Supreme Champion at the WV Jr. Preview Heifer Show, & Reserve Supreme Heifer at the WVIF Fall Jackpot show. She's only going to get better as time goes on and will be one of those heifers that will be tuned for the late summer shows. Sells open.

This heifer is a prime example of what her sire has done for us. She combines a gorgeous phenotype with the maternal reliability anchored by a shot of Coleman Donna. Her dam is a profitable Insight daughter that possesses extra size and dimension that always produces quality. WHC Pride 23 is the easy keeping kind that will be dynamic and a generating asset in her new herd.

What regularly tracks consumers' beef preferences?

YOUR DOLLAR DOES.

For more info visit: www.wvbeef.com

The West Virginia Beef Industry Council (WVBIC) is a non-profit organization charged with the promotion and marketing of beef and beef products in West Virginia. It is part of a coordinated state/national effort funded by beef producers through the beef checkoff program. Checkoff dollars are used to increase beef demand through programs of promotion, research and education.

Discover how your dollar supports state-of-the-art research that taps into 2,000 consumers every month to track modern trends in meat demand – empowering the industry with the crucial knowledge to strengthen beef's place in the market.

Sign up for your complimentary newsletter at YourDollarDoes.com.

Funded by The Beef Checkoff.

We are your “go-to” provider in North Central West Virginia. We offer a complete supply of products for all your farming needs. Delivery available.

Adj. SC: 39.4 · Adj. UREA: 15.62 · Adj. UIMF: 4.77

Keystone was the lead bull of our Grand Champion Lim-Flex Pen at the 2023 National Western Stock Show and went on to be named the Grand Champion Lim-Flex Bull in the Open Show on the hill. Praised for being "nice profiling, deep centered, good bodied and square hipped", the judge described him as being "pleasing on the move and pleasing on the stop". This homozygous polled, 75% Lim-Flex bull combines show ring eye appeal with EPDs ranking in the top 30% for CE, WW, MK, CM, YG and RE. Plus, he boasts impressive adjusted yearling REA and adj. IMF. We thank the Getz family of Rolling Acres Limousin for their purchase of half interest and full possession of Keystone.

For semen on this exciting young herd sire, contact Grassroots Genetics, 515/965-1458.

PROFIT. REPEAT.

Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit RedAngus.org for details on the industry's most-favored female.

WOW, WOW, WOW!!!! L2302 is the beautiful yearling daughter of Lot 401, sired by Bieber Deep End. You will appreciate the results of this mating as this heifer comes with the same structural soundness, length of spine, depth and spring of rib as her front-pasture dam. Plus, L2302 has that feminine front-end and wide, long hip that everyone is looking for.

If you or your customers sell them by pound, you'll want to be selling sons out of Lot 403 - who puts 5 traits in the top 1% of all Red Angus. Her 108 MPPA dam is one of our very top producers, and 2008H is the apple that didn't fall far from the tree with a 368 day calving interval while maintaining progeny ratios of 104 WW and 119 YW. Bred AI to BIEBER DISCOVERY E583 on November 27th then exposed to BROWN-CH INSIGHT J5281 December 9 - January 16. Ultrasound on January 25th suggested safe 60 days to DISCOVERY with a heifer fetus.

If you are looking for your next great herd sire check out CH L5952. This calf stacks the power, performance and carcass traits of his dam with the efficiency and maternal traits of his sire. He ranks 14% for \$Profit, 5% \$Feeder and an elite 0.4% for F:G. Beef cattle production becomes sustainable by selecting herd bulls like this.

Here's a special Mountaineer Classic attraction! CH 2031H was AI bred Nov 27 to LSF JRR NEXTGEN 2407K who sold for \$200,000 and whose semen will be held off the market for two years, then exposed to BROWN-CH INSIGHT J5281 December 9 - January 16. This typical docile, functional, easy keeping daughter of FRANKLY has already produced a \$3000 weaned heifer calf that sold in our 2023 Prime Maternal production sale. She adds pay-weight and muscle with elite weaning, yearling and REA traits.

A respected cowman once told me BECKTON JULIAN B571 was like adding a little salt and pepper to your food; he adds flavor to every pedigree. CH 2041 is linebred to B571 on both sides of her pedigree. PROFIT DRIVEN has been the most influential female producer in history of the Cedar Hill program and at 11 years of age he still ranks in the top 5% for \$Profit. Lot 405 has an amazing 337 day calving interval, a 101 MPPA and multiple traits in the top 5%. She was bred AI to BIEBER DISCOVERY E583 on November 27th then exposed to BROWN-CH INSIGHT J5281 December 9 - January 16. Ultrasound indicates safe to the AI date.

The older I get the more I appreciate the pleasant disposition of 2045H. Her 104 MPPA and amazing 310-day calving interval sets her apart for productivity and fertility. Ultrasound suggests she bred back for her third calf on the AI date and along the way she has compiled a 104 MPPA. She ranks 7% WW, 5% YW, 4% ADG and 13% Marb. Her sire is the most influential sire in history or the Cedar Hill program and her maternal grandsire is arguably the #1 high accuracy marbling sire in the breed. She was bred AI to BIEBER DISCOVERY E583 on 11/27/23 then exposed to BROWN-CH INSIGHT J5281 from 12/9/23 to 1/16/24.

LSFVA MS DEPENDABULL 2244 brings a 7% BW yet 13% ADG and 19% YW to maximize efficiencies. The dam's temperament is excellent and did not lose body condition while raising her first calf through a drought year. This heifer comes out of a herd focused on the Gridmaster index and will add value and pounds to your herd. Sire is Brown JRAR Deep End H6631, who has single digit GM, WW, YW, ADG percent ranks. Sells open and ready to breed.

If you're focused on beef production and dam productivity, Lot 414 combines both; she'll perform in the pasture and her calves will look good on the rail. 12% ProS and 11% HerdBuilder Indices. This heifer comes out of a herd focused on direct marketing beef in a low-input system and the dam looks excellent year-round on a variety of forages. Sire is Brown JRAR Deep End H6631, who has single digit GM, WW, YW, ADG percentiles. Sells open and ready to breed.

ProS Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

Fellow Cattle Breeders:

We are pleased to offer the Beef Expo Catalog for your review. If you have attended past sales, we believe that you will agree that “quality” has been the consigners’ main interest and this year’s lots will be no exception! We look forward to meeting you at the sale. As members and consigners, we appreciate your faith in the genetics of the Simmental Breed.

Please note the consigners list at the bottom of this page. Any inquires concerning any lot will be welcomed by these breeders.

We would like to thank all consigners for their cooperation and all prospective buyers for their support of the sale.

Cattle sell under terms and conditions of the American Simmental Association.

<p><u>BV Honey J13</u> <u>Lot 603</u></p> <p>Purebred Cow/Calf Polled ASA: 3892654 Tattoo: J13 Birth Date: 4/6/21 Consigner: Buena Vista Simmental</p> <p style="margin-left: 40px;">Triple C Singletary CCR Cowboy Cut CCR Ms 4045 Time</p> <p style="margin-left: 40px;">TLLC One Eyed Jack BV MZ Cracker Jack Teets Miss PTB 1st Lady</p> <p>EPD's CE 10.6 BW 2.4 WW 78.8 YW 113.9 MCE 4.5 MM 19.8 MWM 59.1 API 129.7</p> <p>Honey is a sweet tempered and structurally sound female. She is black and is developing a fine udder. She traces back to a Pays To Believe ½ blood cow we bought from Teets Cattle Co. She has a bull calf born 1/25/24 by her side out of Loverboy.</p>	<p><u>BV Miss Innovator J9</u> <u>Lot 604</u></p> <p>Purebred Cow/Calf Polled ASA: 3892657 Tattoo: J9 Birth Date: 3/4/21 Consigner: Buena Vista Simmentals</p> <p style="margin-left: 40px;">TJ Main Event GDI Innovator CDI Ms Shear Force</p> <p style="margin-left: 40px;">In Dew Time HPF Miss Pep WW Miss Pep 58 N</p> <p>EPD's CE 10.9 BW 1.4 WW 79.6 YW 115.9 MCE 3.6 MM 19.5 MWM 59.3 API 135.5</p> <p>You will be getting two females if you buy this lot. The cow out of Innovator and Miss Pep is carrying a heifer embryo out of Innovator and Miss Pep. This pair will be full sisters. These Hudson Pine cows are getting hard to find. Calf due 2/24/24</p>
<p>Choice of CLAC Black Satin X W/C Bet On Red or CLAC Black Satin X Silveiras Style Lot 605 2 sets of 3 Sexed Heifer IVF Embryos</p> <p>For the first time ever, we are offering IVF heifer embryos out of our Boots' daughter, CLAC Black Satin 151J. Bet On Red is one of the hottest young sires in the breed right now and he really hit the mark when Griswolds mated him to Boots and produced the AI sire, GCC Genoa. With this Boots' daughter out of Pays To Believe and mated to Bet On Red, the sky is the limit. Or...If you like SimAngus, here's an opportunity for you. Silveiras Style is a very maternal Angus bull that is no stranger to the show ring. We think the physical attributes of these two will compliment each other very well and could produce the next great half blood heifer.</p> <p>Classic Simmental Farm Lot 605 CLAC Black Satin Pictured on the right</p>
